By She Code Africa.

The Fundamentals of Digital Marketing, Oct 2019

By Google Digital Skills for Africa.

OBJECTIVE

I am a front-end developer who loves transforming UIUX designs and ideas into amazing-looking and responsive websites. I also love drafting technical documents, writing articles, and contributing to open source.

EXPERIENCE

Technical Writer | July 2022 - Present

UploadCare

- Improving the company's presence in the industry by creating articles and tutorials that align with its goal.
- Writing thorough, engaging, and well-researched articles.
- Working closely with the company's editorial team to make content more engaging and exciting to read.

Frontend Developer | June 2022 - Present

Tramango

- Successfully and singlehandedly migrated the current codebase from the VueJs(NuxtJs) framework to the ReactJs(NextJs) framework.
- Collaborating with product and design team members to implement new feature developments.
- Implementing and standardizing all output with a new, responsive, mobile-first approach.
- Working with REST APIs to get JSON data to display them using Javascript Objects.

Open Source Maintainer | February 2022 - Present

Tech Roadmap

- Building & maintaining the project and user interface of the web app.
- Reviewing contributions and issues, and ensuring that approved contributed codes get merged promptly.

Guest Author | January 2022 - Present

LogRocket

- Writing thorough, engaging, and well-researched articles on frontend development languages and frameworks, and tools and concepts used in Frontend Development.
- Collaborating with the editorial team to ensure that all articles have quality content and are more engaging to read.

EDUCATION

Higher National Diploma (HND): Surveying and Geoinformatics

2012 - 2018

Yaba College of Technology,
Jibowu, Lagos.

Frontend Developer | October 2021 - Present

Freelancer

- Responsible for building and deploying interactive web applications using front-end technologies.
- Collaborating excellently with peers and stakeholders in a fast-paced distributed team.
- Working with REST APIs to get JSON data to display them using Javascript Objects.

Intern Programmer | February 2022 - May 2022

Propfunds

- Built the admin web interface from scratch, ensuring that the admins have a smooth user experience.
- Collaborated with product team members to implement new feature developments.
- Worked with REST APIs to get JSON data to display them using Javascript Objects.

VOLUNTEER WORK

Technical Writing Facilitator | July 2022 - Present

Empower Her Community; Non Technical Bootcamp 1.0

- Giving technical writing classes to learning participants of the program.
- Drafting and providing technical writing courses and other useful resources to facilitate and moderate classroom discussions and student-centred learning.
- Developing and evaluating weekly tasks of the learning participants to assess their knowledge gained from the Bootcamp.

Frontend Developer Mentor | July 2022 - Present

She Code Africa Mentoring Program - Cohort 6

- Providing mentorship to front-end developer mentees in the program.
- Have regular weekly sections with the mentees for checkups, updates and reviews of weekly assignments.
- Providing and evaluating weekly assessments of mentees assigned to me.

Open Source Developer | April 2022 - Present

moja global

- Updating the codebase and UI of the web app.
- Interacting and collaborating with other contributors and maintainers to further enhance the features and user experience of the project.
- Helping with the migration of the codebase from VueJs v2 to VueJs v3.
